

Teejay Hidalgo

Backend Web Developer

Summary

- I am a professional back-end developer with 7 year experience in creating websites. Proficient knowledge of the back-end programming language/framework. I have a good understanding of front-end web technologies like HTML, CSS, and JavaScript and communicate well with front end developers. I am able to manage a hosting environment, including database administration as well as scaling applications to handle load changes. With experience in version control, such as Git. I am currently looking for a company or freelance job where I can continue to grow and learn as a web developer and software engineer.

Experience

2011-07 -
2017-05

Senior Software Engineer

Sevenworks Inc.

- Writing, maintaining and enhancing program code
- Creating, maintaining, and enhancing databases
